

# CORAZON STROKE INSTITUTE

Powered By CEREBROS

The **Corazon Stroke Institute** brings excellence in stroke patient care through continuous focus and expert input to all facets of program development.

The Corazon Stroke Institute is a package solution to expertly **manage patient and program elements from start to finish.**

**This three-phase approach is the bundled package hospitals need to implement or improve stroke program performance.**

## ASSESS.

- Review of existing program components
- Establish program goals/vision
- Identify gaps and areas of focus
- Develop workplans and workgroups for improvement

## IMPLEMENT.

- Project management to achieve goals
- Sample materials
- Develop program tools
- Establish best practice and continuous quality improvement measures

## ACTION.

- CEREBROS™ for program management
- Custom reports to monitor performance
- Identify areas of focus for continued progress
- Ongoing staff education
- Support and identify program strategies

With more consistent processes and streamlined care, programs with 250+ cases per year can increase stroke program margins by over \$250,000 annually.
