

Today's current healthcare environment is changing rapidly. The global crisis surrounding the COVID-19 pandemic has placed an increased spotlight on these changes and the need to quickly adapt. Telehealth platforms offer immediate utility and social distancing while proving useful for all levels (Inpatient, Outpatient, Emergent, Clinic) and settings of care.

Optimize your telehealth platforms **with increased mobilization for the rapid paradigm shift of the in-person delivery model to more remote means.** Time is critical, as the Telehealth approach has quickly become the preferred mechanism of patient management now and will remain as a staple service well into the future!

Why Mobilize Telehealth at your Organization?

- ⦿ **Stay connected** to non-emergent, non-COVID-19 patients who still need care
- ⦿ **Prevent system backlogs** once COVID-19 concerns are lessened
- ⦿ Set-up and sustain more **efficient care delivery** in the long term

Corazon already has years of experience with telehealth assessment and optimization. Corazon can assist you with telehealth mobilization through:

- An evaluation of the proper remote care delivery infrastructure, which includes providers, equipment, and processes
- The latest payor requirements for reimbursement and optimization for coding/billing
- Ensuring compliance with the latest regulations which change rapidly
- A service and equipment gap analysis to allow for maximized resources
- Financial analysis of any recommended expenses to enhance the telehealth service(s)
- And more...

ACT NOW to schedule a rapid evaluation of your current telehealth capabilities and/or future service needs to prepare for increased impact from COVID-19. Corazon will remotely support both planning and implementation measures so that changes happen simultaneously and critical needs are immediately addressed through action!

Corazon is your trusted industry resource for telehealth implementation and optimization during this unprecedented time in our industry... We're here to help your hospital do what needs to be done to mobilize quickly and successfully in the face of this crisis and ongoing operations.
