

Corazon placed a Clinical Nurse Specialist and Educator as an interim at multiple client sites. Through these interim engagements, the interim was able to showcase their talents and provide current educational materials and processes - to prepare the client nurse leaders for the future.

The Position:

Corazon provides interim solutions to promote continued success and productivity of a growing service line. With a Clinical Nurse Specialist (CNS) and Educator as an interim, resources become readily available to create education plans for all incoming nurses and educate the current team on the new trends in patient care. The interim will review policy and procedure documents for updates to ensure clinical practice is at best practice levels.

Interim Placement Locations

Our Interim:

With over 20 years of experience in nurse management, the interim was able to work in a variety of settings and share their knowledge with current and incoming nurses at multiple hospitals within the system and in various settings of care. They were able to assist in forming a system-wide group to review and redefine STAT, which allowed for continued recommendations to further the nursing team. Standardization with maintained policies and procedures are vital for a successful program. The interim was able to enhance policy effectiveness in Percutaneous Coronary Intervention (PCI), Heart Failure, and ECHO/Vascular just to name a few. Corazon's interim had a hands-on approach to support the improvement of clinical programs while maintaining high quality performance.

More Successful Outcomes

- Had direct oversight of the Surgical ICU and Hemodialysis department while implementing a nurse education system for medical staff
- Identified growth needs in nursing staff while overseeing the nursing practice
- Created and implemented education update during environment change to ensure readiness of the team

Results:

Through Corazon's proven process and access to a national candidate pool, Corazon's interim had multiple opportunities to share their talent. During the many different interim client placements, they were able to increase standardization and program effectiveness, as well as strengthen their own skill set as a Clinical Nurse Specialist and Educator.
