

Corazon placed a Clinical Nurse Specialist and Educator as an interim at multiple client sites. Through these engagements, the interim was able to showcase their talents and provide current educational materials and processes to prepare the client nurse leaders for the future.

## **The Position:**

Corazon provides interim solutions to promote continued success and productivity of growing service lines. With a Clinical Nurse Specialist (CNS) and Educator as an interim, resources become readily available to create education plans for all incoming nurses and educate the current team on the new trends in patient care. The interim reviewed policy and procedure documents for updates to ensure best clinical practice.

*Interim Placement Locations*

## **Our Interim:**

With over 20 years of experience in nurse management, the interim was able to work in a variety of settings and share their knowledge with current and incoming nurses at multiple hospitals within the system. They were able to assist in forming a system-wide group to review and redefine STAT, which allowed for continued recommendations to further the nursing team. Standardization with maintained policies and procedures are vital for a successful program. The interim was able to enhance policy effectiveness in Percutaneous Coronary Intervention (PCI), Heart Failure, ECHO/Vascular, and more. Corazon's interim had a hands-on approach to support the improvement of clinical programs while maintaining high quality performance.

## **More Successful Outcomes**

- Had direct oversight of the Surgical ICU and Hemodialysis department while implementing a nurse education system for medical staff
- Identified growth needs in nursing staff while overseeing the nursing practice
- Created and implemented education updates during environment changes to ensure team readiness

## **Results:**

Through Corazon's proven process and access to a national candidate pool, Corazon's interim had multiple opportunities to utilize their talent. During the many different interim client placements, they were able to increase standardization and program effectiveness, as well as strengthen their own skill set as a Clinical Nurse Specialist and Educator.
